

All design and printing is done with antique handset type and ornaments from the studio collection.
Thanks for supporting the original craft of letterpress printing!

Pricing includes consultations at the start of your project to determine the design direction, two rounds of tweaks & alterations as well as samples of papers and inks appropriate for your project. I send 2 digital mockups during the design period from which to choose; these are very close to the final printed piece, given some discrepancy between digital mockups and the antique materials used in the final typesetting and printing. **I do not offer fully printed proofs. The entire process, from initial design consult to final printed pieces takes between 4-8 weeks, depending on a number of factors: timing, press availability, paper choices, etc. Letterpress work takes the time that it takes. A deposit of approximately half the cost of the final job is required to hold the design and press time.**

Additional costs apply for:

- extra rounds of tweaks & alterations
- specialty papers (handmade or double thick)
- additional diecutting beyond the sleeves listed below
- expedited shipping
- plate cost of \$75-\$125 per color for any computer-generated imagery (i.e., an existing logo)

Yes! I'm happy to do reprints of sleeves I've designed and printed for you. If your design does not change, subtract 30% from the below pricing for reprints.

Larger quantities are available; contact me for details.

Cd Pocket Sleeves and **Tab N Slot Sleeves** are custom made using the cardstock of your choice (pending availability). They can be purchased **blank** or **designed & printed**. For printing, add number of colors cost to the price of the blank sleeves. Blank sleeves are NOT assembled (you can do it!); printed ones can be for an additional cost of \$50/hour.

POCKET SLEEVES 

Quantity	100	200	300	400	500	1000
BLANKS	175	190	205	220	235	310
for printing, add:						
1 color	285	315	345	375	405	555
2 color	375	410	445	480	515	690

3 color	860	980	1055	1130	1205

LP sleeves

Yes, LP sleeves can be printed, with some limitations based on the sizes of the presses. Premade packages can be printed on the platen press with some restrictions on print area; spines cannot be printed. Foldover sleeves, or those diecut before being glued can be printed on the Vandercook press with some restrictions on print area; spines can be printed. Please email for more information.
