

All design and printing is done with antique handset type and ornaments from the studio collection.

Thanks for supporting the original craft of letterpress printing!

Pricing includes consultations at the start of your project to determine the design direction, two rounds of tweaks & alterations as well as samples of papers and inks appropriate for your project. I send 2 digital mockups during the design period from which to choose; these are very close to the final printed piece, given some discrepancy between digital mockups and the antique materials used in the final typesetting and printing. **I do not offer fully printed proofs. The entire process, from initial design consult to final printed pieces takes between 4-8 weeks, depending on a number of factors: timing, press availability, paper choices, etc. Letterpress work takes the time that it takes. A deposit of approximately half the cost of the final job is required to hold the design and press time.**

Posters & Prints can be: **12x18" 14x14" 14x18"** (max sheet size)

Posters & Prints are usually 2-4 colors, depending on the design and what makes it look finished.

Larger quantities are available; contact me for details.
